UNIVERSITY OF PEACE IN AFRICA

UPA – Campus de Formation Panafricaine de Paix

Campus of Panafrican Peace Training

Dear Madame,
Dear Sir,

YOU are a multiplicator in Peace and Reconciliation work...

YOU are working in a specific association or in a specific Peace project of the Civil Society in your country and you have ambition to study more for the benefit of your work, your NGO or your governmental organisation or program...

YOU are committed or interested in international and panafrican co-operation and networking for Peace and social reconciliation...

YOU manage or you would like to start an activity supporting and promoting Peace and Social Coherence...

\+ +
So please let us invite you to register to our panafrican training

UNIVERSITY OF PEACE IN AFRICA, Session 2019

07 to 28 July 2019, in Congo (Brazzaville)

\+ +

THE UNIVERSITY OF PEACE IN AFRICA is a project of international training and pan-african networking. By invitation of a local partner in Peace Work, the UPA Campus opens each year in a different country of Africa: it is teaching in French and English language. UPA is offering a social and activating training in maintaining and building Peace, in desescalation and preventing violence, in mediation and positive management of conflicts. The UPA Campus sets a methodical quality time for achieving enhanced competences, further personal development and effective networking.

Our UPA training is following the dynamics of **3 main axes** and **6 modules** of learning:

1. Individual Transformation (MODULES)
   (1.1) The Real Inner Power – Theory and practice of positive human being
   (1.2) The Biographical Approach – Awarness and attitudes of a Peace Builder
2. Changing Paradigm
   (2.3) Non-Violent Communication / Mediation / Social negotiation
   (2.4) The holistic social development / Hope for Africa / Ethics and network
3. Social Transformation
   (3.5) Conflict analysis and positive conflict management
   (3.6) Social Therapy

UNIVERSITY OF PEACE IN AFRICA

A PARTICULAR OFFER

\+ +

YOU feel the need to train and deepen yourself in basics of Peace building, in its fundamental settings, in your own understanding, your approaches and your tools to use as a Peace Builder...

YOU are searching for a training session with coherent, complete and active didactics, developing a participatory pedagogy within the group dynamics of the Campus, allowing a deep resourcing in all dimensions of your personality (which short term sessions and conferences are not able to offer)

YOU may not easily have time and resources to choose a long term training and education in (foreign) academic institutions; but you prefer our medium term 'summer university' adult training less expensive and less bureaucratic…

YOU like to join us in our 250 peace builders' network all over Africa, who passed and enjoyed the Campus experience of the previous sessions and who created, in 2017 only, a platform of networking and joint action: PAUBP – Panafrican Union of Peace Builders.
